

Addendum #090110
To that certain
RFP #083110
Issued by
The National Joint Powers Alliance
For the procurement of
SCHOOL BUSES AND RELATED EQUIPMENT, SUPPLIES AND ACCESSORIES

Please consider the following to be a part of the above referenced RFP :

The Question: On the Optional Equipment page under the lift unit options there is no information letting the proposer know how many wheelchair placements to figure in the pricing of different size and configurations of units.

The Answer: The instructions below apply to Tabs 18 through 23 and provide clarification of optional equipment in the "Options Specific to Lift Buses Only" Section of each tab.

To determine the standard number of wheelchair spaces to be provided on each of the different designed capacity floor type/lift door location options (in order to calculate +\$ or -\$ compared to base lift bus unit), reference "Seating Capacity for **Standard** Floor Wheelchair Lift Buses" (Tab 16) or "Seating Capacity for **Flat** Floor Wheelchair Lift Buses" (Tab 17) as applicable. Use "STD" & "N/A" as needed.
